International Stoneworks Unveils New “Green” Natural Stone Care Products Line

HOUSTON (February 16, 2010) – International Stoneworks, Houston’s premier natural stone restoration and maintenance business, presents its new line of “green” products. Now clients can clean, seal, and polish their natural stone, while remaining environmentally-friendly. Each product, Lavenet Green, Seal & Go® W and Ver Glow #2, is effective and safe for the user and the environment, according to Rawi Tabbah, International Stoneworks president.

Lavenet Green is a neutral cleaner for natural stone, tile, ceramic and grout. This product is VOC compliant and biodegradable with no solvents or phosphates.

Seal & Go® W is a water-based, impregnator sealer that provides maximum protection against water and grease stains for all interior natural stone surfaces and grout, while preserving the stone’s natural appearance. It does not contain any solvents and is VOC compliant in all 50 states.

Ver Glow #2 is a non-acidic natural stone polishing compound, which adds a beautiful shine to stone surfaces.

It is now possible to essentially do a whole stone restoration project on floors and non-floors such as vanities, tables, shower walls, tub surrounds, bar and kitchen tops, using only International Stoneworks’ “green” products. All products in the “green” line are Leader in Energy and Environmental Design (LEED) compliant.

“This is International Stoneworks’ first “green” venture and we are so pleased to introduce products where their effectiveness is only matched by their eco-friendliness. It is International Stoneworks’ firm belief that people should use only the best specialty products for their stone investments. We saw a demand, commercially and residentially, for efficient, safe, “green” products and we delivered. We want to promote environmental consciousness as well as make safe products not only for the public, but also for our employees. International Stoneworks is proud to give its clients the option to ‘go green.’” said Tabbah.

Lavenet Green is available for purchase at:

Bering's Hardware at 6102 Westheimer Houston, TX 77057
Bering's Hardware at 3900 Bissonet Houston, TX 77005

About International Stoneworks, Inc.

International Stoneworks, established in 1982 by Rawi Tabbah, is Houston's premier natural stone restoration and maintenance business. Many prominent Texas buildings and homes have used International Stoneworks to clean, restore, protect, and maintain natural stones such as marble, travertine, granite (polished or flamed), slate, limestone (honed or polished), onyx, flagstone, terrazzo and other natural stones.

International Stoneworks is an active member of the Marble Institute of America (MIA) and has done work for commercial and residential customers in Houston and its surrounding cities, Dallas-Fort Worth, San Antonio and Austin for 28 years. Not only does it perform stone restoration services, it also sells safe and efficient products in order for clients to maintain their stone investments.
