education

### NEW SINK SAVER

Omni Cubed Inc., Placerville, Calif., offers the new 2010 version of its **Sink Hole Saver™** to protect finished stone pieces from breakage during lifting, moving and installation. The efficiently-engineered pump operates on a 9V battery to maintain pressure for all cups; the U.S.-made unit can be converted on-the-spot (without tools) to manual thumb pumps if a battery is not available. The new model includes rail, vacuum pump, 9V battery adapter, cups with covers, and thumb-pump plungers.

**Contact:** Omni Cubed, 877-311-1976

### CONCRETE STAIN

**Braxton-Bragg LLC**, Knoxville, Tenn., introduces a new line of concrete stain from **Smith Paints** of Harrisburg, Pa. Smith Color Floor is a water-based stain with acrylic polymer formulation and superior adhesion, and can be used with concrete, brick, plaster and natural stone, as well as other surfaces. Both UV- and weather-resistant, it can be applied to previously sealed surfaces with an airbrush, production gun, pump sprayer, sea sponge or bristle brush; it requires only a sealer coat over the stained surface.

### MOISTURE VAPOR REDUCER

**ProSpec®**, Charlotte, N.C., introduces Moisture Vapor Reducer (MVR) for lowering the transmission rate of a concrete substrate by up to 80 percent, taking a substrate that emits 15 lbs of moisture per 1,000 ft<sup>2</sup> in 24 hours to less than three lbs per 1,000 ft<sup>2</sup> in the same time frame. It can be applied to green concrete as young as 14 days old, and features a rapid-drying formula that allows same-day flooring installation. The product is also solvent-free, non-flammable and emits no volatile organic compounds (VOCs).

**Contact:** ProSpec, 800-738-1621

### GREEN STONE CARE

**International Stoneworks**, Houston, introduces a line of green products for stone care. Lavenet Green is a neutral, VOC-compliant cleaner with no solvents or phosphates for natural stone, tile, ceramic and grout; Seal & Go® W is a water-based, solvent-free, VOC-compliant impregnator sealer providing protection against water and grease stains for all interior natural-stone surfaces and grout; and Ver Glow #2 is a non-acidic natural-stone polishing compound, which adds a beautiful shine to stone surfaces.
