Safety Data Sheet acc. to OSHA HCS

Printing date 01/22/2014 Reviewed on 01/22/2014

1 Identification

· Product identifier

· Trade name: Marble Filler 1000 Universal

10102, 10103, 10104, 10105, 10107, 10113, 10116, 10125, 10130, 10131, Article number:

10132, 10120, 10108

· Relevant identified uses of the substance or mixture and uses

advised against

No further relevant information available.

- Application of the substance / the

Knife filler/ Surfacer mixture

· Details of the supplier of the safety data sheet

· Manufacturer/Supplier: AKEMI chemisch technische Spezialfabrik GmbH

Tel. +49(0)911-642960 Lechstrasse 28 Fax. +49(0)911-644456 D 90451 Nürnberg e-mail info@akemi.de

· Information department: Laboratory

Product Safety Department AKEMI chemisch technische Spezialfabrik GmbH · Emergency telephone number:

Tel. +49(0)911-64296-59

Reachable during the following office hours: Monday - Thursday from 07:30 a.m. to 16:30 p.m.

Friday from 07:30 a.m. to 13:30 p.m.

2 Hazard(s) identification

· Classification of the substance or mixture

GHS02 Flame

Flam. Liq. 3 H226 Flammable liquid and vapour.

GHS08 Health hazard

STOT RE 1 H372 Causes damage to organs through prolonged or repeated exposure.

GHS07

Skin Irrit. 2 H315 Causes skin irritation.

Eye Irrit. 2A H319 Causes serious eye irritation.

· Classification according to Directive 67/548/EEC or Directive 1999/45/EC

Harmful by inhalation. Harmful: danger of serious damage to health by prolonged exposure through inhalation.

Irritant

Irritating to eyes and skin.

Flammable.

 Information concerning particular hazards for human and

environment:

Vapours of the product are heavier than air and may accumulate on the ground,

in mines, drains or cellars with higher concentration.

Contact with skin and inhalation of aerosols/ vapours of the preparation should

be avoided.

The product has to be labelled due to the calculation procedure of the "General Classification guideline for preparations of the EU" in the latest valid version.

(Contd. on page 2)

Safety Data Sheet acc. to OSHA HCS

Printing date 01/22/2014 Reviewed on 01/22/2014

Trade name: Marble Filler 1000 Universal

(Contd. of page 1)

The classification was made according to the latest editions of international · Classification system:

substances lists, and expanded upon from company and literature data.

· Label elements

Labelling according to EU

guidelines:

The product has been classified and marked in accordance with directives on

hazardous materials.

 Code letter and hazard designation of product:

Xn Harmful

· Hazard-determining components

of labeling:

styrene

Flammable. · Risk phrases:

Harmful by inhalation. Irritating to eyes and skin.

Harmful: danger of serious damage to health by prolonged exposure through

inhalation.

· Safety phrases: Keep out of the reach of children.

Do not breathe vapour.

Avoid contact with skin and eyes.

In case of contact with eyes, rinse immediately with plenty of water and seek

medical advice.

Do not empty into drains, dispose of this material and its container at hazardous

or special waste collection point

Wear suitable protective clothing, gloves and eye/face protection. In case of insufficient ventilation, wear suitable respiratory equipment.

If swallowed, seek medical advice immediately and show this container or label.

Use only in well-ventilated areas.

· Classification system:

· NFPA ratings (scale 0 - 4)

Health = 2Fire = 3Reactivity = 0

HMIS-ratings (scale 0 - 4)

*2 Health = *2 HEALTH 3 REACTIVITY 0

Fire = 3Reactivity = 0

· Other hazards

During processing and product hardening the network generator is released as fume. Consequently, take care for adequate air conditioning and for fume

exhaustion on request.

· Results of PBT and vPvB assessment

· PBT: Not applicable. · vPvB: Not applicable.

3 Composition/information on ingredients

· Chemical characterization: Mixtures

Mixture of the substances listed below with nonhazardous additions. · Description:

(Contd. on page 3)

4 First-aid measures

Additional information:

Description of first aid measures

• General information: Take affected persons out into the fresh air.

Position and transport stably on side.

Immediately remove any clothing soiled by the product.

For the wording of the listed risk phrases refer to section 16.

Symptoms of poisoning may even occur after several hours; therefore medical

observation for at least 48 hours after the accident.

· After inhalation: Supply fresh air. If required, provide artificial respiration. Keep patient warm.

Consult doctor if symptoms persist.

In case of unconsciousness place patient stably in side position for

transportation.

· After skin contact: If skin irritation continues, consult a doctor.

Immediately wash with water and soap and rinse thoroughly.

· After eye contact: Rinse opened eye for several minutes under running water. If symptoms persist,

consult a doctor.

· After swallowing: A person vomiting while lying on their back should be turned onto their side.

· Information for doctor: With reference to section 2 the formulation contains styrene in the indicated

mass concentration range. Styrene fumes will preferably be incorporated by inhalation via respiratory tract, skin resorption is currently considered as an inferior way of incorporation. In case of inhalation styrene is absorbed in a 60-90% range. Distribution in organism occurs rapidly, the maximum blood concentration can be analyzed after one hour after incorporation. Styrene exposition affects skin, mucous membranes, and central nervous system (CNS).

Acute damages / risks to health:

In case of styrene poisoning mainly damages to and interactions with central nervous system (CNS) arise. In concentration ranges above 200 ml/m3 symptoms such as fatigue, nausea, imbalance and prolonged response times

are observed.

(Contd. on page 4)

Safety Data Sheet

Printing date 01/22/2014 Reviewed on 01/22/2014

Trade name: Marble Filler 1000 Universal

Chronical health risks:

(Contd. of page 3)

Cilionical ficaltif fisks.

Effects at central and peripheral nervous system and respiratory tract are evident in literature.

Main health risks are:

- prolonged response times

reduced cognitive performance, partial amnesiaretardation of nervous impulse transition speed

- disturbances of pulmonary function

Most important symptoms and effects, both acute and delayed

Nausea Dizziness Headache

Breathing difficulty

Dizziness

Danger of impaired breathing.

Skin contact with polyester and epoxy resin solutions as ingredient of the product should be avoided due to risks of skin irritations or allergic skin appearances. If occasional hand contact can not be avoided, protection gloves, proper protection ointments and protective agents generating a protective layer

on the skin were applied.

· Indication of any immediate medical attention and special

treatment needed If swallowed, gastric irrigation with added, activated carbon.

5 Fire-fighting measures

Extinguishing media

· Suitable extinguishing agents: CO2, extinguishing powder or water spray. Fight larger fires with water spray or

alcohol resistant foam.

· For safety reasons unsuitable

extinguishing agents:

Water with full jet

Special hazards arising from the

substance or mixture

Formation of toxic gases is possible during heating or in case of fire.

In case of fire, the following can be released:

Carbon monoxide (CO) Nitrogen oxides (NOx)

In certain fire conditions, traces of other toxic gases cannot be excluded, e.g.:

Hydrogen cyanide (HCN)

· Advice for firefighters

• <u>Protective equipment:</u> Wear self-contained respiatory protective device.

Do not inhale explosion gases or combustion gases.

Wear fully protective suit.

Mount respiratory protective device.

• Additional information Dispose of fire debris and contaminated fire fighting water in accordance with

official regulations.

Collect contaminated fire fighting water separately. It must not enter the sewage

system.

6 Accidental release measures

· Personal precautions, protective equipment and emergency

procedures

Ensure adequate ventilation Keep away from ignition sources

Use respiratory protective device against the effects of fumes/dust/aerosol.

Wear protective equipment. Keep unprotected persons away.

(Contd. on page 5)

Safety Data Sheet

Printing date 01/22/2014 Reviewed on 01/22/2014

Trade name: Marble Filler 1000 Universal

(Contd. of page 4)

• Environmental precautions: Do not allow product to reach sewage system or any water course.

Inform respective authorities in case of seepage into water course or sewage

system.

Do not allow to enter sewers/ surface or ground water.

· Methods and material for

containment and cleaning up: Dispose of the collected material according to regulations.

Absorb with liquid-binding material (sand, diatomite, acid binders, universal

binders, sawdust).

Dispose contaminated material as waste according to item 13.

Ensure adequate ventilation.

• **Reference to other sections** See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

7 Handling and storage

· Handling:

Precautions for safe handling
 Keep receptacles tightly sealed.

Store in cool, dry place in tightly closed receptacles.

Keep away from heat and direct sunlight.

Ensure good interior ventilation, especially at floor level. (Fumes are heavier

than air).

Use only in well ventilated areas.

Ensure good ventilation/exhaustion at the workplace.

· Information about protection

against explosions and fires: Keep ignition sources away - Do not smoke.

Protect against electrostatic charges.

· Conditions for safe storage, including any incompatibilities

· Storage:

Requirements to be met by

<u>storerooms and receptacles:</u> Store only in the original receptacle.

Prevent any seepage into the ground.

· Information about storage in one

common storage facility:

Store away from oxidizing agents.

Store away from foodstuffs.

· Further information about storage

conditions:

Store receptacle in a well ventilated area.

Keep receptacle tightly sealed.

· Storage class:

· Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

Additional information about

design of technical systems: No further data; see item 7.

· Control parameters

· Components with limit values that require monitoring at the workplace:

· Additional information: The lists that were valid during the creation were used as basis.

· Exposure controls

· Personal protective equipment:

· General protective and hygienic

measures:

Do not eat, drink, smoke or sniff while working. Use skin protection cream for skin protection.

Clean skin thoroughly immediately after handling the product.

Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing.

Wash hands before breaks and at the end of work.

Do not inhale gases / fumes / aerosols. Avoid contact with the eyes and skin.

- Breathing equipment: Short term filter device:

Filter A/P2

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use respiratory protective device that is

independent of circulating air.

· Protection of hands: Preventive skin protection by use of skin-protecting agents is recommended.

After use of gloves apply skin-cleaning agents and skin cosmetics.

Akemi skin protection agent recommendation for preventive skin shelter without

use of protective gloves:

(Contd. on page 7)

Safety Data Sheet acc. to OSHA HCS

Printing date 01/22/2014 Reviewed on 01/22/2014

Trade name: Marble Filler 1000 Universal

(Contd. of page 6)

ARRETIL (http://www.stoko.com)

Akemi skin protection agent recommendation for preventive skin shelter in application and combination of protective gloves:

STOKO EMULSION (http://www.stoko.com)

Akemi skin protection recommendation for skin cleaning after product handling: SLIG SPEZIAL (http://www.stoko.com)

Akemi skin protection agent recommendation for skin aftercare:

STOKO VITAN (http://www.stoko.com)

The protection gloves to be used have to comply with the specifications of the directive 89/686/EC and the directive derived decree EN374, respectively, e.g. the above listed protection glove type. The mentioned permeation times data were generated and verified with material samples of the recommended protection glove type in the scope of laboratory anylyses of the company KCL GmbH in compliance with EN374.

This recommendation refers exclusively to the material safety data sheet referenced product delivered by Akemi and the indicated field of application. In case of product dilution or in case of mixture with different substances or chemicals, and in condition of EN374 deviation the producer of CE-approved protection gloves must be contacted for detailed information (e.g., KCL GmbH, Germany, 36124 Eichenzell, internet: http://www.kcl.de).

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

· Material of gloves

Butyl rubber, BR

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material

Value for the permeation: Level ≤ 1, 30 min

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

 For the permanent contact gloves made of the following materials are suitable:

Butyl rubber, BR

Butoject (KCL, Art No. 897, 898)

 As protection from splashes gloves made of the following materials are suitable:

Butyl rubber, BR

Butoject (KCL, Art No. 897, 898)

 Not suitable are gloves made of the following materials:

Fluorocarbon rubber (Viton) Natural rubber, NR

Nitrile rubber, NBR Chloroprene rubber, CR

Leather gloves Rubber gloves

· Eye protection:

Tightly sealed goggles

11 Toxicological information

· Information on toxicological effects

· Acute toxicity:

· LD/LC50 values that are relevant for classification:

100-42-5 styrene

Oral LD50 5000 mg/kg (rat)

Dermal LD50 >2000 mg/kg (rat) (OECD-Prüfrichtlinie 402)

Inhalative LC50/4 h 11.8 mg/l (rat) LC50/4h 9.5 mg/m3 (mouse)

· Primary irritant effect:

· on the skin: Irritant to skin and mucous membranes.

· on the eye: Irritating effect.

Sensitization: No sensitizing effects known.

• Experience with humans: After incorporation and inhalation styrene predominantly will be metabolized in

the organism to mandelic and phenylglyoxylic acid and matabolites will pass

through urine excretion.

· Additional toxicological

information: The product shows the following dangers according to internally approved

calculation methods for preparations:

Harmful Irritant

· Carcinogenic categories
